SATURDAY FEBRUARY 15, 1878.

We hear of a wonderful prodicy down in the lower part of the county that is exciting the good people of Pohick to an extent never before known. A blind negro girl, the daughter of Samuel Lee (who is bimself said to possess some knowledge of woodoo-

day of some of her feats, which, if true, show her to be a prodicy indeed. He teld us of a goatleman who visited the girlfor the purpose of testing the supernatural powers said to be possessed by her, and came away so thoroughly convinced of the truth of the wonderful tales of her woodoo powers that he straight way went to Washington city and reported the fact to the professor at the Smithsonian Institute, who

questions in regard to the purport of the questions in regard to the purport of the paper, the number of signatures, the kind of paper upon which it was written, &c., she answered every one of them as correctly as if she had seen and read it. One other wonder she performs is she can tell the age, height, and color of hair and eyes of a person whom she has never seen. She can also tell a person of the good deeds done in his past life, and describe them in the most minute particular. The gentleman informs us that it is a rule of the girl never to disclose her knowledge of evil acts done by her interviewers under any circumstances—not even by request of the person anterested.

The curiosity is creating immense excitement in the neighborhood, and hundreds are daily thronging to see her. Many persons of high standing and veracity have visited her and corroborate the stories of her wonderful powers. The gentleman from whom we get our in-

formation in regard to this girl is one who is reliable and holds a responsible office in the county .- Fairfax Messenger.
